

ENVIRONMENTAL SERVICES

YA's Environmental Services practice offers a host of expert offerings to assess environmental issues involving indoor air quality (IAQ), mold and microbial impacts, smoke and combustion byproduct impacts, hazardous materials releases and handling, and other environmental impacts/conditions.

OUR SERVICES

- Asbestos Mitigation
- Contamination Assessment
- Expert Witness & Litigation Support
- Fire Damage Assessment and Mitigation
- Laboratory Testing
- Moisture Mapping
- Remediation Design & Oversight
- Water Damage & Microbial Assessment
- Project Monitoring / Clerking

The YA Environmental Team comprises industrial hygienists with asbestos, lead, hazardous materials/wastes, indoor environmental, microbial, fire, and smoke consulting certifications. The team also includes IICRC-certified mitigation consultants, accredited project designers, and management planners. This combination of industrial hygienists and mitigation experts makes YA uniquely qualified to assess environmental impacts and develop effective impact mitigation protocols and remediation/abatement plans to address environmental impacts/issues.

YA is an approved continuing education provider by numerous state insurance commissioners and offers continuing education courses, seminars, and training to clients nationwide. With over 125 IICRC WRT, ASD, and FSRT-certified consultants and numerous industrial hygienists, we are positioned to respond to environmental events anywhere in the United States.
